Vavenby Member Report July 15, 2009

- We experienced a water shortage in June due to a blown fuse that was so old nobody makes them anymore luckily the electrician could replace the fuse and holder, at his suggestion and TNRD permission I hired a young apprentice to draw out a schematic of the wiring of the pump house.
- At the last meeting of the fire dept. committee it was decided that new roofing for the fire hall would be top priority we also will look into a mast for the radio antenna.
- Kevan Sheffield is hoping to get a building up for the rink in the next few months.

Subject: skaan.net letter of support

Skaan.net is requesting letters of support from different community leaders and representatives so that we may supply high speed (900 Mhz) wireless Internet to Vavenby (600-1500kb/s) and later to expand to Birch Island. We plan to supply this through an initiative between Telus and Network BC found here:

<http://about.telus.com/digitaldivide/>

It is our hope that through government grants and local support that we can supply high speed Internet for \$45-\$55 a month, and a one time setup fee of approximately \$50-\$150, no equipment purchase necessary by the users. We have the means an ability to do a complete "Ramp up" within 1 year of start up.

Our current status, is that we have submitted a business plan to this organization, and they require support letters showing that we have community interest and backing. Tim Pennell is currently helping organize extra grant money to bring initial capital/set up costs down, and with the support of Telus' imitative, the possibility of supplying a stable and high speed solution to Vavenby in the next few months is very plausible. To complete the obligations to the application for this we need 3-5 letters of support showing that Vavenby (and the surrounding area) does want this to go through, and that they will allow skaan.net<<http://skaan.net>> to take the role to become such a provider.

Thank you for your time,

Kim Annis

Subject: Strawberry Festival

Hi there Sherry

I hope that the TNRD will be able to assist us in our efforts to keep this Strawberry Festival going. If possible can you put my letter on the table for the next meeting. Leslie Groulx suggested that I send you a letter with this request as the market certainly does take in vendors and customers from the area from Avola to Barriere. We are very proud of our market and would like this festival to promote the growing of strawberries in the area and a general interest in gardening, local production and sales. Please let me know if there is anything else that might be necessary. The attachment is our budget for the Festival.
Suzanne

Dear TNRD

It is with great pleasure that we announce our Second Annual Clearwater Farmers Market Strawberry Festival to be held on Saturday July 18, 2009. Instead of being part of the BC 150 Celebrations of last year, we are partnering with the Living Well/Chronic Disease Prevention Program to put on the Festival and the Strawberry 5km Fun Run. Again this year we will be assisted by CFES, the Elks, The Kettle Restaurant, IWE, Rooted by the River and loyal volunteers. The berries for the Strawberry Eating Contest and all the prizes and supplies will be purchased locally. The baking contest will this year put out a challenge to local chefs to showcase their talents and promote their local restaurants. The Event tent will again feature a display of the history of Strawberries in the Valley. The schedule of events will be available in the paper, through the Living Well team and at the market. To further our cause and to allay some of the costs that were covered by BC 150 last year (when we won in our category and now have our shiny new white Event Tent!) we are asking if the Regional District has a way to grant us funds in the sum of \$500. We are hoping to make this a sustainable event as its importance to the early summer economics of our area brings more vendors from the area we already serve, from Vavenby to Barriere, and vendor fees to assuage costs in the future. Contact our Market Manager Brenda Barber at 250-674-3259 for more information.

Hoping to see you all there, I remain,

Yours truly,
Suzanne Gravelle

Parks 2010 Budget Planning & Field Review

Ferry Road

- Establish a streetlight at the end of Ferry Road, nearest to the park. Pole number is 2163854 (preferred) or 2314058 (secondary). There is a private residence (Hemmerling) adjacent to this park and providing extra lighting will provide better security to our site and anyone drawn to this park after dark, as well as for the adjacent resident. Resident has requested this streetlight thru John Wilcox originally.
- The onsite trail seems to be unmaintained. How far does it go and is it TNRD responsibility?
- What is the total hectares of this site?
- Need to establish a recycle barrel.
- Previously there were discussions on extending the existing dock. WGCSC discussion centered around utilizing the existing dock and not extending it because it would entice children to venture further out into the current and faster water.

Birch Island Community Park

- The old building adjacent to the roadway and fence is a School District 73 liability. Discussions have occurred between SD73 and the TNRD about TNRD facilitating the disposal of this building thru burning, with the involvement of the Clearwater and Vavenby Fire Departments.
- Need to establish a recycle barrel.
- M. Miller will provide specifications for the shed to be built adjacent to the hydro supply for assessment as to whether it fits into the budget this year or not.
- Need to replace the two top caps on the playground.
- Establish supply of dog poop bags.

Birch Island Cemetery

- Grant in aid provided to the BI Cemetery Committee by TNRD annually.
- Records are held by Linda Moss, M. Miller oversees the maintenance.

Vavenby Riverside Park

- Issues with dogs coming into the park from adjacent properties. Find out who established the fence between the properties and then block them off accordingly (Carl and Tony Schuhardt)
- The well needs to be filled in (Director Pennell indicated that he may be able to have a volunteer with backhoe, fill and dump truck undertake this work).
- Need to establish a recycle barrel.
- Establish supply of dog poop bags.
- Need a garbage can.
- $\frac{3}{4}$ " feed to irrigation from swing set towards basketball court to bottom of slope to establish a green area of grass.

Vavenby Community Park/Hall

- Need to establish a recycle barrel.
- Establish supply of dog poop bags.
- Continue to investigate options of establishing irrigation on the ball field surface.
- Cement walkway near main entrance needs to be fixed as it has broken and become uneven.
- Roof over entryway is sloped so that the snow sheds over the walkway, need to look at redesigning this if the building is ever given a facelift.
- Replace the broken lightpost and light.
- Get the tennis net reestablished (store in the basement for the winter).
- Request Kal Tire come and remove the Homecoming Tire.
- Xeric garden?
- Dig up arena standpipe and repair so it won't freeze again.
 - MOTION within the minutes
- B. Regin to discuss standpipe issue with R. Schuhardt on requirements to dig up the standpipe and repair the issues so it won't freeze again.
